

OUR SUSTAINABILITY PROMISE

"We see our company as a fabric that can only function successfully if its warp and weft are coordinated. Long-term economic success is only possible if we succeed in creating and maintaining social and ecological values. Only in this way can a balance be struck between economic, ecological and social aspects. "

Philippe Baumann, CEO

LONGEVITY OF OUR PRODUCTS

Useful life of 15 to 20 years on average: The longevity of our products is a fundamental prerequisite for long-term use and has an enormous impact on their environmental footprint. We focus on timeless design, high-quality materials and workmanship, as well as transparent information on use and care.

PROMOTING CIRCULAR ECONOMY

84% monomaterial textiles (target for 2030: 90%); use of recycled yarns; 100% of our products (pre-consumer) surplus stock is reused for its original or another purpose, or recycled into a new material.

CLIMATE PROTECTION

Since 2008, committed to voluntary CO₂ reduction towards the Swiss government and already a member of the Swiss Energy Agency for Industry since 2003. CO₂ emissions have been reduced by 35% since 2013, with the goal of achieving a further 35% reduction by 2030 through additional measures.

PRODUCT SAFETY & WELL-BEING

OEKO-TEX® STANDARD 100 for ~80 % of our product range.

ISO 14001

Certified according to the best-known environmental management system ISO 14001 since 2000 – continuous optimisation of environmental performance.

WORKING CONDITIONS

Family business since 1886, in its fourth generation, with a modern, transparent corporate culture and a focus on health and wellbeing.

ENVIRONMENTAL & CODE OF CONDUCT FOR OUR SUPPLIERS

Binding, internationally recognised standards and conventions on sustainability and environmental protection, working conditions, ethics and transparency for all partners. This includes, among other things, an absolute ban on forced and child labour in all areas of business and throughout the entire supply chain.

INNOVATION AS A FUNDAMENTAL MINDSET AND CORE COMPETENCE

A pioneer in functional textiles since 2002, starting with blackout fabrics, followed by glare and heat protection as well as acoustic fabrics, with a focus on recyclable product development.
