

# Campus Founders – Heilbronn

Working and workshop world consisting of spaces that are as flexible and modular as possible, which can be used individually and changed without great effort.

## Starting Point

For the new Campus Founders office, a former library in the Dieter Schwarz Foundation was transformed into a start-up centre.

Viewed from above, the floor plan is arranged in a circle that fluidly connects lounges, offices, event spaces and workshop areas. In the middle is the heart of the building, the outdoor area, designed to connect all areas and speed up exchange.

## Solution

The main focus is on the spontaneous and individual conversion of the spaces by the users themselves. At the same time, it had to be ensured that acoustic solutions necessary for the working atmosphere were found.

The work and event areas received curtains as textile walls that can be opened or closed depending on the application.
