LifeCycle exhibition at swissnex

swissnex Gallery, opened in 2016, creates a bridge between Switzerland and San Francisco through events and exhibitions. It reflects and inspires ideas, sparks conversations across cultures and disciplines, and unlocks possibilities through collaboration.

Starting Point

Swissnex San Francisco's mission is to connect people from Switzerland and San Francisco to share their ideas. A suite of events, workshops, conferences and exhibitions about ideas and topics shaping societies is organised.

Solution

The "An Eye Unruled" exhibition was developed in collaboration with the Winterthur photo museum. Staged by Adrien Rovero, it presents the works of five artists.

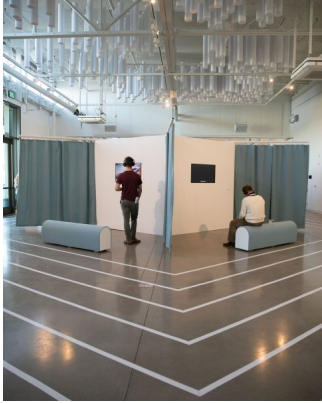

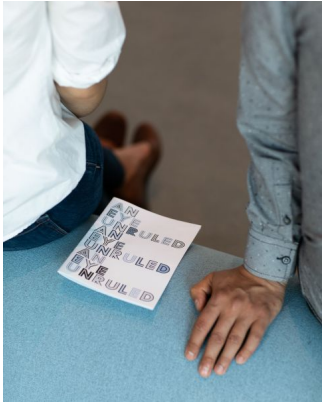

Création Baumann's textiles are an integral part of the exhibition's design, contributing to improving the exhibition experience. The curtains create a spatial divide between the five *oeuvres*, and stools invite visitors to linger a little while.
