

Office

# Treurovision AG – Zurich

Colourful curtains break through the rational office atmosphere.

## Starting Point

The spacious offices in a building from the turn of the century underwent an extensive refurbishment. STUDIO GESSAGA focused on selective colour accents for the curtain design that should break through the office atmosphere and already give customers an elegant welcome in the foyer.

## Solution

The dense, flame retardant UMBRIA III curtain fabric is a classic with a variety of applications and is ideal for adding some colour to the grey office environment thanks to its wide range of colours. Additional acoustic properties contribute to its excellent room acoustics.
