

Office

# EKI Bank – Interlaken

It takes just a simple step to bring the mountains into the office.

## Starting Point

The EKI Bank is in the centre of Interlaken. The transformation of the counter area expanded both the 24-hour zone and also created meeting rooms for short meetings in addition to 20 newly designed offices for the bank advisers on the first floor.

The offices are given a completely new character through the use of natural materials, such as wood and stone.

## Solution

The PRINTACOUSTIC MOUNTAIN curtain fabric was used to complement the natural materials. The printed curtain fabric with mountain designs and sound-absorbing properties is used to provide visual protection for short meetings and, at the same time, is an eye-catching feature in the newly designed area of the EKI Bank.
