

Office

Bene GmbH – Showroom and Office

An innovative office concept for today and tomorrow.

Starting Point

As part of OrgaTec 2022, Bene is planning a completely new concept for the showroom in Cologne: under the design idea of the «CASUAL GARDEN», forward-looking ideas and solutions on the topic of «New Work» will be presented.

Solution

For Bene's new showroom in Cologne, an innovative design solution was developed that meets the requirements of a modern and future-oriented working environment. The textiles used support the design concept. At the same time, functional aspects such as room zoning, glare protection and acoustics have been optimally implemented. The eye-catcher and highlight is the central welcome coffee point, which warmly welcomes visitors and guests. VOILE TINTO provides the visual frame, interpreting the «CASUAL GARDEN» theme with its flowing colour gradient and translucent look. In the entrance area, ALU NET with its clean, transparent mesh structure provides a deliberate design counterpoint, which is further enhanced by LED backlighting. GLOBE and JASPIS define the different work and meeting situations and can be variably zoned according to the user's needs. SINFONIAACOUSTIC provides pleasant room acoustics in the conference area and also ensures glare-free video conferencing. All in all, the solution presented combines aesthetics, functionality and innovation and reflects the forward-looking concept of «New Work» in every respect.

Textiles Used

ALU NET

Article-Number: 0101330

Anwendung: Vorhangstoff transparent/halbtransparent

Number of colors: 7

Material: 100% Polyester flammhemmend

Stoffbreite: 290 cm

Gewicht: 116 g/m²

Lichtechtheit: 7

DIMMER IV-300

Article-Number: 0005402

Anwendung: Verdunkelungsstoff/Blackout

Number of colors: 19

Material: 100% Polyester flammhemmend (Trevira CS)

Stoffbreite: 300 cm

Gewicht: 260 g/m²

Schallabsorption: α_w 0.60

Scheuerfestigkeit: 23'000 Martindale

Pilling: 4-5

Lichtechtheit: 6-7

SINFONIAACOUSTIC

Article-Number: 0101755

Anwendung: Vorhangstoff transparent/halbtransparent

Number of colors: 12

Material: 100% Polyester flammhemmend (Trevira CS)

Stoffbreite: 300 cm

Gewicht: 105 g/m²

Schallabsorption: α_w 0.60

Lichtechtheit: 5-6

SINFONIA CS VI WEISS

Article-Number: 0100301

Anwendung: Vorhangstoff transparent/halbtransparent

Number of colors: 3

Material: 100% Polyester flammhemmend (Trevira CS)

Stoffbreite: 300 cm

Gewicht: 74 g/m²

Schallabsorption: α_w 0.10

VOILE TINTO

Article-Number: 0101685

Anwendung: Vorhangstoff transparent/halbtransparent

Number of colors: 3

Material: 100% Polyester flammhemmend (Trevira CS)

Stoffbreite: 295 cm

Gewicht: 51 g/m²

Lichtechtheit: 5

JASPIS II

Article-Number: 0036670

Anwendung: Vorhangstoff transparent/halbtransparent

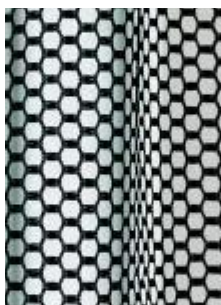

Number of colors: 37

Material: 100% Polyester flammhemmend (Trevira CS)

Stoffbreite: 320 cm

Gewicht: 54 g/m²

Lichtechtheit: 5-6

GLOBE

Article-Number: 0101565

Anwendung: Vorhangstoff transparent/halbtransparent

Number of colors: 6

Material: 100% Polyester flammhemmend (Trevira CS)

Stoffbreite: 300 cm

Gewicht: 145 g/m²

Lichtechtheit: siehe downloads
