HAM house – Tokyo

Elegant living art with the beauty of fabric ensembles.

Starting Point

Amidst the urban energy of Osaka, HAM house rises as an elegant example of contemporary residential architecture. This special residential complex redefines living by combining the perfection of Japanese craftsmanship with modern design elements.

Solution

The solution for HAM house is a sophisticated combination of form, function and aesthetics. By using high-quality curtains such as SOPRANO COLOR III and DIMMER IV, the beauty of the fall of the fabric was perfectly staged. The HAM house changes the idea of urban living and creates a harmonious balance between aesthetics and functionality. The curtains flow gently, complementing the clean lines of the architecture and creating a sense of intimacy and security.

Textiles Used

DIMMER IV

Article-Number: 0005400

Anwendung: Verdunkelungsstoff/Blackout

Number of colors: 54

Material: 100% Polyester flammhemmend (Trevira CS)

Stoffbreite: 150 cm

Gewicht: 260 g/m²

Schallabsorption: α_w 0.60

Scheuerfestigkeit: 23'000 Martindale

Pilling: 4-5

Lichtechtheit: 6-7

SINFONIA CS VI color

Article-Number: 0100300

Anwendung: Vorhangstoff transparent/halbtransparent

Number of colors: 61

Material: 100% Polyester flammhemmend (Trevira CS)

Stoffbreite: 300 cm

Gewicht: 74 g/m²

Schallabsorption: α_w 0.10

Lichtechtheit: 5-6
