# Volg – Winterthur

Modern office worlds: Textile solutions for a new working environment.

## Starting point

Volg Winterthur is planning a two-stage remodelling of its office infrastructure in order to meet the requirements of modern working environments. The idea is to create new work areas with an open-plan layout and only use individual offices in isolated cases.

## Solution

The SINFONIA and UMBRIA curtain fabrics were selected to create an open and flexible working environment. These help to optimise the room acoustically, create a pleasant working atmosphere and also act as a privacy screen. An open-plan layout, the reduction of individual offices and the use of high-quality curtain fabrics create an inspiring working environment that promotes dialogue and collaboration between employees.

# Textiles Used

---

## SINFONIA CS VI color

**Article-Number:** 0100300

**Anwendung:** Vorhangsstoff transparent/halbtransparent

**Number of colors:** 61

**Material:** 100% Polyester flammhemmend (Trevira CS)

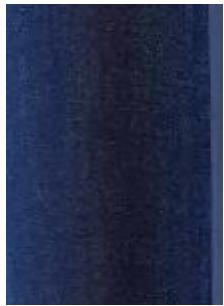

**Stoffbreite:** 300 cm

**Gewicht:** 74 g/m<sup>2</sup>

**Schallabsorption:**  $\alpha_w$  0.10

**Lichtechtheit:** 5-6

---

## UMBRIA IV

**Article-Number:** 0004200

**Anwendung:** Vorhangsstoff dicht

**Number of colors:** 40

**Material:** 100% Polyester flammhemmend (Trevira CS)

**Stoffbreite:** 150 cm

**Gewicht:** 281 g/m<sup>2</sup>

**Schallabsorption:**  $\alpha_w$  0.70

**Scheuerfestigkeit:** 50'000 Martindale

**Pilling:** 4

**Lichtechtheit:** 5-6
