# wbg – Nürnberg

Textile accents for a harmonious interior design.

## Starting point

Wbg is being redesigned with the aim of creating spaces that enable agile working, clearly reflect the corporate identity and allow customisation. This includes equipping it with modern furniture as well as coordinating and implementing all the necessary craftsmanship. The concept is so flexible that it can be transferred to other areas in the building.

## Solution

A particular highlight of the design is the use of the semi-transparent JASPIS curtain fabric, made from Trevira CS yarns. The subtle two-tone colour and the slightly iridescent effect of the fabric lend rooms a sophisticated touch, while the soft drape creates a pleasant and harmonious atmosphere.
