Luftmattstrasse Studio Building – Basel

Textile harmony for aesthetics and acoustics.

Starting Point

The apartment building is situated in the Gellert district of Basel. In place of an old garage, a U-shaped perimeter development was built at one end, orientated towards three directions. The plastered single-leaf brickwork with regularly arranged windows and deep reveals gives the façade its spatial depth. In the spirit of a spatial plan by Adolf Loos, the rooms of varying heights on the ground and first floors are grouped around a central concrete core. The workshop, entrance hall, dining area, kitchen, living space, office, and communal room form a multifaceted spatial continuum, interacting across two levels. The complex spatial organisation establishes diverse connections to the outdoors, while the materialisation—with exposed concrete ceilings, felt-brushed lime-based plaster on the walls, and terrazzo flooring—achieves a contrasting simplicity.

Solution

A bespoke textile solution was devised to enhance the minimalist materiality of the building while addressing both acoustic and aesthetic needs. The fabrics LORD, SINFONIAACOUSTIC, and UMBRIA TINTO were purposefully selected. LORD provides subtle elegance, structure, and excellent acoustic properties, making it ideal for use in the music room. SINFONIAACOUSTIC ensures optimal room acoustics, while UMBRIA TINTO adds warmth and depth with its natural interplay of colors. These textiles seamlessly harmonize with the building's understated materiality, creating a sensory dimension that elevates both functionality and living comfort.

Plan: Brandenberger Kloter

Textiles Used

LORD IV

Article-Number: 0100130

Use: Dense curtain fabric

Number of colors: 35

Material: 100% Flame retardant (Trevira CS)

Fabric width: 150 cm/59 inch/1.64 yard

Weight: 349 g/m²

Sound absorption: α_w 0.70

Abrasion resistance: 60'000 Martindale

Pilling: 4

Light fastness: 5-6

SINFONIAACOUSTIC

Article-Number: 0101755

Use: Transparent/semi-transparent curtain fabric

Number of colors: 12

Material: 100% Flame retardant (Trevira CS)

Fabric width: 300 cm/118 inch/3.28 yard

Weight: 105 g/m²

Sound absorption: α_w 0.60

Light fastness: 5-6
